Work Stops on Palo Duro December 15th

Title To Land Is Cause Order To Close Work

National Park Service Orders Shut Down After Investigation of Several Months

PARK STAYS OPEN

No Action Has Been Taken By State Park To Clear Situation

The National Park Service has ordered work of the CCC Company to be stopped on the Palo Duro State Park on December 15th. No order has been received from the army as to the disposition of the men in the company, but chances are that they will be transferred to other companies. The government is closing two other CCC camps in Texas at that time—the one at Big Bend and the one at Fort Worth.

Lack of title to the land in the Palo Duro is given as the cause for withdrawing the company and discontinuing operations.

Inspector Is Here

W. F. Ayres, inspector for the National Park Service, was here Monday to inform all connected with the Park to get ready to disband work on the 15th.

Mr. Ayres informed the News that he hoped the shut-down was only temporary. However, he stated that work would not be resumed until the National Park Service had positive proof that the State of Texas owned the land upon which work was being done. The federal government can no longer afford to put improvements upon land which might revert to private ownership, stated Mr. Ayres.

Everyone connected with the National Park Service has a desire to see the Palo Duro made a great regional park, but so far the operations have been very unsatisfactory due to the title to the land being clouded by a heavy debt which the

Street Bonds Get Popular Approval

Election Held on Tuesday Is Carried by Vote of 141-30: Work May Start Soon

Voters of Canyon authorized the City Commission to issue $10,000 in street improvement bonds at the special election Tuesday. 172 votes were cast in the election. 141 voters favored the bond issue; 30 votes were cast against the bond issue, and one ballot was mutilated.

Mayor C. R. Burrow stated yesterday that the City Commission would meet at once with A. A. Meredith, district supervisor of WPA. The city will designate the streets to be hard surfaced. If there is a sufficient number of men available to do the work, the City Commission will ask that work be started as quickly as possible. WPA has already approved the project and has set aside $17,676 for the labor and material on the job.

Mr. Burrow states taht the streets which are used the most by the citizens of Canyon would first be hard surfaced, and then the money used on streets which need the work but serve a fewer number of people. Under the approval of this project, the city is allowed to do only the street improvement which is deemed most necessary, and work may be discontinued at any time the city commission sees fit to do so.

If work is started on the Buffalo Dam south of Umbarger, WPA has agreed to place all available men on this project. For that reason, the bonds will not be printed and sold until it is felt certain that considerable work may be completed in Canyon in the immediate future.

Co-Ed Fashion Shop Moves to New and Larger Location

An improvement was made in a business firm of Canyon during the past week when the Co-Ed Fashion Shoppe moved to its new location at 2304 Fourth Avenue.

The building, formerly known as the Bellah Building, was purchased recently by Mrs. Alvin McDonald and Mrs. O. A. May, owners of the Shoppe. They have completely remodeled the interior of the building according to the very latest designs for small Fashion Shops, with up to date fitting rooms and a separate alteration room. An all-over rug covers the floor.

Mrs. McDonald and her mother, Mrs. May, opened the Co-Ed Fashion Shoppe in the DeArmand building across the street from their present location eight years ago. They started out with a very small stock, working on a small profit and a quick turn-over. The business has grown yearly, and is now one of the most complete small fashion shoppes for my-lady's ready-to-wear that can be found anywhere in the Panhandle.

The Central China College which Mr. Allen represents is under the auspices of five co-operating religious denominations.

The public is invited to attend the lecture.

500 Farmers Sign Under Agricultural Conservation Work

Monday and Tuesday was signing day for the farmers of Randall county under the Agricultural Conservation program. 500 contracts were completed. Other farmers who were unable to be here on that date are signing daily at the office of W. H. Upchurch, County Agent.

Farmers of the east half of the county met Monday and elected the following representatives to the Randall County Agricultural Conservation Association: R. B. Gist, W. O. Turpin and Jeff Wallace, as committeemen; Ross Craig, alternate and C. B. Erwin, second alternate.

Those from the west half of the county met Tuesday and elected the following: J. P. Hix, L. B. Hammond and John Bedenk, committeemen; C. P. Robertson, alternate, and Carl B. Fuqua, second alternate.

Committeemen from the two districts organized by electing the following county committeemen:

R. B. Gist, President.
J. P. Hix, Vice President.
W. O. Turpin, Member.
L. B. Hammond, Alternate.

Miss Robbie Foster visited in the parental R. E. Foster home during the Thanksgiving holidays. She returned Sunday to Bula where she is teaching.

Contest Starts in Canyon for Attractive Decorations

Ten Prizes Are Offered to Residents and Business Houses For Best Decorations

Canyon citizens are urged to decorate for the Christmas season.

The Chamber of Commerce is offering ten prizes in cash for citizens who present the most attractive decorations on their homes and at their business houses.

Those wishing to enter the contest must file their names with Levi Cole, secretary of the Chamber of Commerce, before December 20.

Five prizes will be offered for the most attractive decorations in the residential district, and five prizes will likewise be offered for the most attractive decorations in the business district.

In both classes the prizes will be as follows: $5.00 for 1st prize; $2.50, second prize; and three prizes of $1.00 for third, fourth and fifth places.

Judges will be brought from outside of Canyon.

Most of the business houses of Canyon have started decorating their stores and all others will have their decorations up before the end of this week.

HARRISON MOVES HIS OFFICE LAST NIGHT

C. N. Harrison moved the Randall County Abstract office last night from the building at the southeast corner of the square to the room in the back of the First National Bank.

Herschel Jennings has bought the building formerly occupied by Mr. Harrison and will move the Household Appliance business to this location in a few days.

Boy Scouts Ask For Old Toys to Repair, Repaint

The Boy Scouts of Canyon will gather old toys, repair them and distribute them to needy families at Christmas time.

The Scouts ask all citizens who have toys to leave them at the R. E. Foster Filling Station on Fifth Avenue if they can. But the boys will come after the toys if there are those who have no conveyances to bring the toys.

The Scouts want the toys regardless of the condition that they may be in. The toys wil be repaired and repainted before being distributed at Christmas time.

Red Cross Exceeds Quota for County In Annual Drive

The Red Cross quota for this county, plus twenty-five dollars, was raised by Thanksgiving Day, according to County Red Cross Chairman Guy Harp. Unusual interest in raising the quota was shown by Randall County people.

Four home demonstration clubs in the county enrolled with the organization. They were those at Zita, Westside, Ralph, and Garrison. The Umbarger community also enrolled. The college and high school turned in unit subscriptions representing an enrollment for every faculty member. The Rotary Club and Thompson Hardware Company also turned in unit subscriptions.

Mrs. J. Madison Daugherty was roll call chairman.

The members of the committee have expressed their appreciation to the people who assisted in the Red Cross drive and who have made it possible for the local organization to go over the quota set for this county.

Mrs. Verl Iverson, who is teaching at the Shafer school near Pampa, spent the holidays at her home here.

Check Being Made Now on Title of Land Owners: Ready To Pay the Owners

A representative of the federal government is here from Washington to buy the land for the Buffalo Dam south of Umbarger. The land owners are being visited as rapidly as possible and the deeds drawn which will meet with the approval of the government.

Title to the land, and other features of the purchase will be worked out by this representative. It is believed that he can have all titles worked out in about 30 days.

W. A. Warren, vice president of the Panhandle Water Authority, states that no serious difficulties have been encountered in working out the titles. The land owners will be paid off in government checks as soon as all of the land has been approved and accepted.

A telegram from Washington was received Tuesday at Umbarger asking if there was sufficient trackage and docking facilities available for unloading heavy machinery. Ernest Hollenstein replied to the government's telegram that all kinds of heavy shipments could be handled at Umbarger.

Everything points to an early start on construction of the dam. Whether or not the work will be by contract, or strictly under WPA has not yet been disclosed from Washington.

Brown Stain On Teeth Discussed at Rotary Club

Representatives of the U. S. Public Health department discussed brown tooth stain Tuesday at the Rotary Club luncheon. Louis F. Dodson of Amarillo introduced the visiting dentists, Dr. W. J. Pelton and Dr. F. A. Arnold, who are in Amarillo making a study of brown stain in this territory.

Dr. Arnold stated that they were assigned to carry on the investigations which had been made in the past, particularly that of Dr. Dean who spent some time in Amarillo making a study of the problem.

It has been found that there are 350 areas in the United States which have brown stain. 88% of the affected area is west of the Mississippi river, and 27% is in Texas, practically all in the Panhandle.

Flourine in the water is given as the cause of brown stain. It has been found that the stain exists not only among humans, but likewise among cattle, horses and hogs. No treatment for brown stain has yet been found although in some instances the teeth have been ground when the stain is not deep in the enamel.

Various types of prevention has been used, such as mixing water supply and the treatment of water.

Dr. Arnold stated that various theories have been advocated as to the cause: Defective enamel; forerunner of pyorrhea; that the flourine affects the entire system; that it affects the body only during the first eight years; that the mother inducts the flourine to her child. All of the theories are being carefully checked in order to determine the cause of the brown stain.

Drs. Arnold and Pelton are making a group study of children of the Panhandle and the results will be checked against the study of Dr. Dean in this territory and the result of study in other parts of the nation.

Mr. Dodson stated that Canyon was on top of the health world, with as little flourine in the water as any part of the Panhandle. A bulletin is now available to parents who wish to take advantage of the findings so far on this study, showing how water may be treated at a very small cost.

Visitors present were: John McKnight of Amarillo; W. W. Richeson of Lubbock; Rev. Sam A. Thomas of Canyon.

Malcolm Bull spent last week end in Trinidad, Colo.

Regents Favor Plan Sought By Ex-Students

Education Courses Are Not Required For Degree From W. T. In the Future

STARTS SEPTEMBER

Broadening Scope of W. T. Is Approved After Discussion of Months

While not disturbing the legislative mandate to train teachers for service in the schools of this state, the Teachers College board of regents at Houston Friday decided to permit the institutions to confer degrees without formal courses in education.

This means that, within the bounds of its curriculum, this college will offer to the young folk of this section all of the advantages of a general college. It does not mean that there will be any less emphasis upon training of teachers and serving the schools of the Panhandle. But those who do not expect to teach will not longer be required to take some education courses in order to obtain a degree. This provision had already been made effective with respect to the B. B. A. degree here. This college will offer pre-law, pre-med and other preparatory courses to enable plains students to obtain the work they desire at the least possible cost.

Exes Urge Change

The resolution came about largely through strong demands by ex-student groups in this part of the state and from the Amarillo Chamber of Commerce. John E. Hill, board member from Amarillo, drafted the resolution which also gave approval of shortening titles of the Texas teachers colleges. It pointed out, however, that the board of regents have no authority to make changes in the names of the schools.

Resolutions Quoted

The resolution follows:

"In view of the various strongly expressed wishes of the people of certain areas of Texas that the state

THE PALO DURO PARK

Withdrawal of the National Park Service from the Palo Duro State Park is no surprise to local citizens who have kept in touch with the situation.

From the very start the situation has been an impossible one, and could not work out. The debt against the land is exorbitant. The terms of the contract never could be carried out. The entrance fee was so high that it drove local people away from the park rather than attract them to it.

What the results will be, no one can safely predict at the present time. So long as the Texas State Park Board continues to operate the land, the park will continue. But the trouble is that the State Park Board has no money for maintenance. The first big rain will make the road down into the park impassable. When people can no longer drive down the road, they will not continue to pay the high entrance fee just for the pleasure of looking over the rim. If the state board throws up its hands, chances are that the courts will decide that the improvements put on the land by the national government will revert to the original owners. In this case the federal government will have been gypped out of more than a million dollars that have been spent in developing private property.

The whole trouble started when the enthusiasm of the former park board members was carried away by the high pressure salesmanship of the property owners and the original agreement was entered into. The National Park Service started work believing that the State of Texas could or would pay for the land. But the state has never turned its hand to help the Palo Duro. No money has been spent by the state, largely because of the existence of the huge debt, coupled with the further fact that no one on the park board had much interest in the Palo Duro.

If the debt can be reduced to a reasonable amount so that the income of the park will pay for the land, it is believed that the National Park Service will resume work at the Palo Duro. If and when work is reassumed, the reader may rest assured that the land title will be settled.

It would certainly be a shame if the Palo Duro is eventually closed to the people of the Panhandle. The people of this section need the big playground, but they are not in favor of seeing either the state or national government paying more than the land is worth, or continuing on an impossible contract.

So far as the local people are concerned, value received has been secured on all money put into the park project. The paved highway to the park is worth much more to the county than all that has been spent. When the camps were first placed at the park nearly all of the purchases were made through local business firms. This business came at a time when it was greatly needed. During the past several months little business has been given to local firms.

It is with genuine regret that local people heard that the CCC Company is being removed. No one criticizes the federal government for the action taken, but all citizens hope that arrangements may be worked out whereby the National Park Service will be able to return and build a park on a permanent basis.

Have the legally elected representatives of the people in congress or the legislature a right to think for themselves? Or do the people expect them to follow the dictates of the President or Governor? A large percent of the members of congress will follow the leadership of their party, but during 1937 there has been a notably breaking away from this leadership, and congressmen are thinking aloud for themselves. Legislatures have always felt more free to do as they please than congressmen. We recently had a situation in Texas which proved that the representatives of the people should think for themselves rather than blindly follow. At the start of the special session the Governor and the Board of Control agreed that old age assistance would definitely stop unless more taxes were raised. The legislature refused to impose additional taxes. But has old age assistance stopped? No. It continues, much to the glee of members of the legislature who proclaimed that additional taxes were unnecessary, and somewhat to the discomfort of the Governor and Board of Control who were so sure of their figures. Representatives of the people should be free to think for themselves under all conditions.

Buy in Canyon during Christmas. Too many people rush off up to Amarillo or send out mail orders at Christmas time without even consulting the home merchants. Canyon business houses are filled with choice Christmas gifts, which are priced reasonable. The merchants are only too pleased to show their goods and explain what they have to offer. No offense if the customer does not buy. But it is not treating the home merchants with much regard when the people buy away from home without first trying to fill their needs at home. Look over the Christmas stocks in Canyon. You will be highly pleased both at the selection offered and the prices at which goods are priced in Canyon.

A change is coming over President Roosevelt. He is now taking in consideration the pulse of business more than at any time since taking office. Business cannot be expected to run the government, but business goes a long way in paying the expenses of government. Government cannot succeed unless business is making a profit and keeping men employed. A co-operative understanding between business and government is a happy situation.

Many counties in Texas which voted in favor of the sale of beer are now ousting the beer joints. Experience shows that to legalize beer joints simply opens up the entire liquor problem. The operators are not content to operate strictly beer parlors, and soon all kinds of liquor is being sold. Ardent prohibitionists believe that before many more years booze will again be outlawed in the nation.

Decorate for Christmas. The Chamber of Commerce is offering prizes open for both residences and business houses. All citizens are urged to decorate for the Christmas time and to enter the contests. Canyon should be the most beautiful town on the Plains during the holiday season. Make your plans now for the decorations, and enter this friendly contest.

Bill Murray is back in the fight in Oklahoma and will be a candidate for governor. Jim Ferguson has announced that he is resuming publication of Feruson's Forum, which is paramount to saying that Mrs. Ferguson will be a candidate for governor next year. Politics will be bitter next year. Get your poll tax receipt and be ready for the scrap.

Members of the legislature recently voiced objection to the publicity being mailed from the various state departments. Every major department of the state government has added a publicity man and as a result the newspapers are being flooded with useless letters and publicity from Austin. The taxpayers foot the bill.

The air is full of football protests again this fall. It is a very bad situation and one that should be cured. Filing protests after the game has been lost shows poor sportsmanship.

"The Rest of the Record"

BY JAMES V. ALLRED
Governor of Texas

ONE OR TWO-HOUSE LEGISLATURE

AUSTIN.—Judging from my mail-bag the most popular question of the month is this: "Would the one-house legislature remedy the evils of the present two-house system?"

A great majority of those writing me think it would. Others while admitting the deficiencies of the present legislature ask pertinent questions about the unicameral (one-house legislature. Senator George Norris of Nebraska, father of the unicameral plan, has answered these questions in a speech printed in the Congressional Record.

The questions given below are typical of those in letters to me. The answers are those of Senator Norris as taken from his speech.

1. Isn't the one-house legislature more representative of the people than the present system?

"The adoption of a one-house legislature is a progressive step toward greater democracy. The idea of the present two-branch legislature was copied from England. One of these branches—the House of Commons represented the common people; the other branch—the House of Lords—represented the aristocracy, men of wealth. The original idea was that the monarchy needed a house of lords to protect one class against the inroads of another. It has no place in a democratic form of government where class distinction has been abolished. The great wonder is that it has been maintained so long in a democracy like ours.

"The two-house legislature must be condemned as out of date and permitting the control of legislation by special interests which through the instrumentality of shrewd paid lobbyists are able to defeat the will of the people at every session of a legislature consisting of two houses."

2. Isn't it easier for the lobbyists to control a one-house legislature than both the house and senate?

"The reverse is absolutely true. The professional lobbyist would find his occupation gone, because his success depends upon his ability to assist the unworthy legislator to make such a record that his constituents cannot easily determine just what it is. This is also shown by the fact that in any attempt to adopt a one-house legislature, the proposition is always bitterly fought by trusts, monopolies, lobbyists, and special interests.

"In a one-house legislature, where one member of the body has the right to secure a roll call on every vote, it is impossible for anything to be done in secret. Every act of the legislature and every act of each individual must be transacted in the spotlight of publicity.

"In a two-house legislature, with its necessary conference committee, all kinds of opportunities are offered to perform public business in secret and to cover up the record so the people will not know just who is to blame for the defeat of good laws or for the inclusion of jokers.

"In a one-house legislature, the faithful servant would find his record understood by his people, and it would be impossible for the unworthy legislator to cover up his tracks. No legislation will take place in the dark. There will be no item of legislation without a public record. Legislative matters will be so simplified that the ordinary person will see through them and understand them perfectly. The people would be able without any difficulty, to punish and reward according to the record."

3. What are the evils of the free conference committee under the present two-house system and will the unicameral plan remedy such evils?

"A bill to become law in a two-house legislature must pass both branches in exactly the same form. Where there is a disagreement between the two houses, it is referred to a conference committee. This committee is more powerful in all matters referred to it than either house.

"Its meetings are held in secret; there is no such thing as a roll-call vote; and there is no record of its proceedings. A bill, once referred to a conference committee, cannot become a law unless it is agreed to by a majority of the conferees representing each house.

"Thus, it is within the power of the committee, in secret and without a record vote, and without any public record whatever, to absolutely prevent legislation, and to kill or to modify, at its pleasure, any proposed legislation within its jurisdiction.

"If a report is agreed to, it is then reported to the house and to the senate, and the bill thus reported cannot be amended. It must either be accepted as a whole or rejected in its entirety. Thus, members of the senate and the house are compelled, without an opportunity to offer amendments, to vote for or against the conference bill as a whole. In order to get the good they must accept the bad. If they think the bad predominates, then, in order to reject the bad, they must likewise reject the good. (Note: The outstanding example of this evil occurred in 1933 when the free conference committee tacked on to the departmental appropriation bill the rider authorizing race track gambling which had not been considered.)

"It must be understood in considering this question, that special interests, corporations and monopolies are not as a rule interested in securing the passage of legislation. They are almost universally interested in preventing legislation—which in one way or another regulates their activities and prevents injustice by means of monopolistic control.

"In order to prevent passage of legislation it is not necessary to control both the house and the senate. It is only necessary to control one house, or to control the conference committee, or to control members of the conference committee from either house.

"Nothing of this kind could happen in a one-house legislature for there will be no such thing as a conference committee."

4. Would the unicameral system be less expensive to the taxpayers than the two-house system?

"There are a hundred different ways and means by which the one-house legislature will be much less expensive than a two-house legislature. We could increase the individual salary of the member and yet in the aggregate save a great amount of money in salaries alone. Logrolling, delays, and deadlocks (which are expensive procedures) between the two houses cannot occur."

Practice House To Bear Name of Phebe K. Warner

The late Phebe K. Warner of Claude, beloved writer and clubwoman, will be honored when the new home economics practice house at West Texas State is dedicated early next year.

It will be called "The Phebe K. Warner Home Management House."

The $16,500 structure situated on the campus near Cousins hall, will be completed by the contractors and accepted by the board of regents late this month. In it will live the home economics majors who will study home management under the direction of their teachers. They will do all the work necessary to operate the home.

Mrs. Warner was an advocate of better homes and an effective campaigners for programs which could make this objective attainable. School men and women, club women, civic club members, and all of the others who loved and appreciated Mrs. Warner will be invited to attend the dedication of the Phebe K. Warner Home Management House. Her fellow townsmen of Claude and her children will be special guests of the occasion.

Dr. J. A. Hill, president of West Texas State, said that the board of regents had enthusiastically approved the naming of the new building for Mrs. Warner.

Letters Foster Double Romance

Smiling happily as she goes to marry a man she has never seen, Julia Davis, front, and her sister Frances are shown above at Atlanta, Ga., waving goodby as they boarded the train that was to take them to Glendale, Calif., and their future husbands, Darrell and Duane Benedict, brothers. Julia's romance developed through correspondence with Darrell after they had been "introduced" by letters exchanged by Frances and Duane.

Training School Pupil Leaves For Hollywood

Albert E. Terry, Jr., pupil in the fourth grade of the Demonstration School, left Saturday for Hollywood to try for a movie contract.

Albert, who is nine years old, is a singer, dancer, and actor, and has studied in Hollywood. He returned here a month ago, but was recently called back to Hollywood, and friends believe that he will secure a contract with Republic Pictures.

He was accompanied by his parents, Mr. and Mrs. A. E. Terry and his grandmother, Mrs. W. E. Heizer. Young Terry took his Shetland "Tony" which he has ridden while leading numerous parades in the Panhandle.

He was once introduced to Tom Mix by the late Wilbur C. Hawk of Amarillo, and has since imitated the western actor in dress. Albert hopes to act along with Gene Autry, Republic western actor and singer, with whom he was given a screen test several months ago.

The young musician and dancer has appeared at many entertainments in Canyon, and as an entertainer over the entire Panhandle.

Boys of 4-H Club Inspect Calves on Trip Last Saturday

Six 4-H Beef Calf Club boys made a tour last Saturday afternoon to see the calves that are being fed by the various club members.

The purpose of the tour was to give each boy a chance to see how the other boys are coming along with their calves and to let them pick up any helpful ideas on feeding by a study of methods used in each case. A short discussion concerning the age of the calves and the kind of feed used by each boy was conducted by Assistant County Agent, Nash Thompson.

The calves are to be marketed at the Amarillo Fat Stock Show in March. The boys selected their calves last spring and have had them on feed since June and July. The Randall county club boys will have sixteen calves on exhibit at the Fat Stock Show.

The boys making the tour Saturday were Donald Schaeffer, Glynn Persons, Dona Persons, Corliss Currie, J. C. Kelley and Robert Kelly, with Nash Thompson, and M. L. Kelly, father of J. C. and Robert.

Presenting All-America Team of 1937; Colorado Star Gets Quarterback Post

BY IRVING DIX

THE 1937 football season is practically at an end, with nothing much more than a few New Year's Day "bowl" games left to occupy gridiron fans' attention, but no football season ever drew to a close without its All-America.

And because there's absolutely no reason at all why we should be different, we present herewith, after a poll of coaches and critics the nation over, our All-America of 1937.

Seven seniors and four juniors compose our first team, with two or three eager and very good sophomores just missing out.

Starting with the ends we have John Wysocki of Villanova, a 185-pound junior, and Andy Bershak, North Carolina senior of the same weight. Both are excellent pass receivers while Wysocki also showed deadly accuracy as a place-kicker this year.

Joe Beinor, 200-pound Notre Dame junior and Ed Franco, Fordham senior rate the tackle posts. Franco tips the scales at 210 pounds and has been a regular for three years in the Rams' forward wall.

No one could ask for better guards than Vard Stockton, California senior, and Joe Routt, Texas A. & M. husky, who also winds up his gridiron career this season. Both boys hover around 190 pounds and pack a lot of speed.

• • •

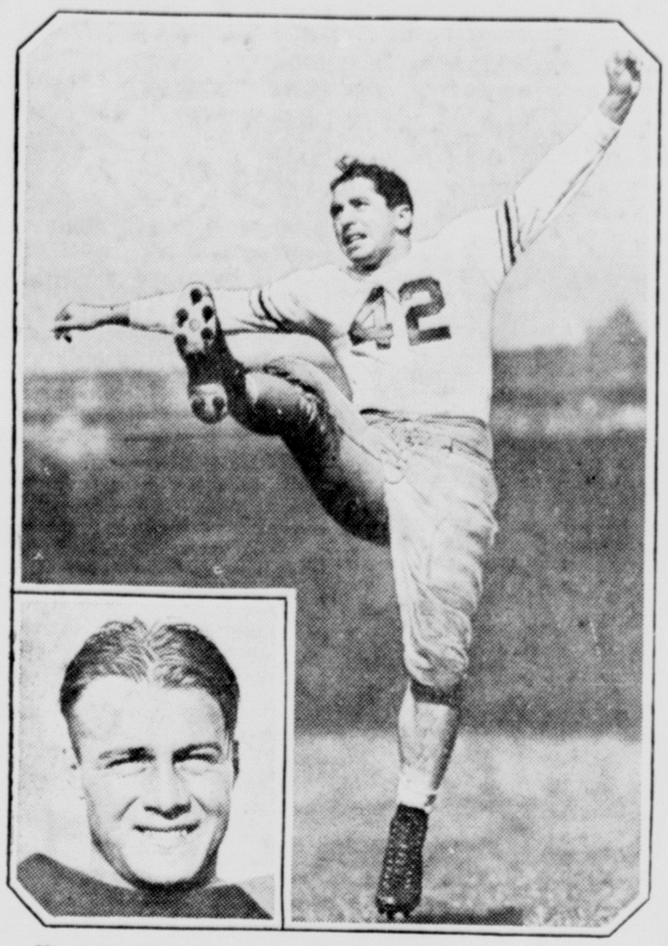
BIG Charley Brock, 210-pound Nebraska junior, wins the center berth, but only after the closest battle for a position our scouts observed all year. The Cornhusker pivot man had to beat off the challenge of such great snapperbacks as Alex Wojciechowicz of Fordham, last year's All-America, and Bob Herwig of California.

The backfield was comparatively easy to pick, even though the country was overrun with star ball-carriers.

No quarterback stood out like Byron (Whizzer) White of Colorado, 180-pound senior who is a triple-threat in every sense of the word.

Marshall Goldberg, Pitt's rampaging junior, who probably is the hardest-running back in the nation, is given one halfback position and Yale's Clint Frank the other. The Eli captain was the sparkplug of Yale's attack all season.

Corby Davis, 200-pound senior from Indiana, led the Hoosiers to one of their most brilliant seasons in many a moon. A great line-smashing fullback, Davis also was a fine passer and blocker.



Marshall Goldberg, above, Pittsburgh's great halfback, is an eastern standout on the All-America this year, with Vard Stockton, inset, California guard, considered one of the finest players from the west.

OTHER boys who deserve more than passing mention are:

Ends: Frank Souchak, Pitt; Bill Jordan, Georgia Tech; Perry Schwartz, California; Ferd Dreher, Denver; Chuck Sweeney, Notre Dame.

Tackles: Tony Matisi, Pitt; Alex Kevorkian, Harvard; Pete Zagar, Stanford; Alex Schoenbaum, Ohio State; Fred Shirey Nebraska.

Guards: Leroy Monsky, Alabama; Claude Evans, California; Joe Hays, Tennessee; Al Hoptowit, Washington State; Ralph Sivell, Auburn.

Centers: Carl Hinkle, Vanderbilt; Gene Moore, Colorado; Ralph Wolf, Ohio State; Pat McCarthy, Notre Dame; Dan Hill, Duke.

Quarterbacks: John Meek, California; Elmore Hackney, Duke; Crowell Little, North Carolina; Jack Robbins, Arkansas; Ambrose Schindler, Southern California.

Halfbacks: Vic Bottari, California; Don Heap, Northwestern; Sid Luckman, Columbia; Bill Osmanski, Holy Cross; Eric Tipton, Duke; Joe Kilgrow, Alabama; Dick Todd, Texas A. & M.; Billy Patterson, Baylor

Fullbacks: George Karamatic Gonzaga; Bill Hutchinson, Dartmouth; Johnny Rabb, Ohio State; Vernon Struck, Harvard.

Chauffeurs Must Pass Examinations Drivers' Licenses

T. R. Lovelace and his assistant of the State Highway Department of Public Safety were in Canyon this morning on their weekly stop for tests of drivers applying for their license.

Not only must drivers of cars have a driver's license, but under the requirement of the law all drivers of cars or trucks driven on the commission basis such as oil agents, clerks, ambulance drivers, grocery store truck drivers, city employees, plumbers, utilities employees, garage pick-up trucks and wreckers, and truck drivers for farmers, come under this classification, and the drivers are required to have chauffeur's license issued by the State Highway Department.

The cost of the chauffeur's license is $3.00 a year from date of issue. A charge of 25c is made all those who apply for their second driver's license under the new law.

Mr. Lovelace and his assistant will be in Canyon with headquarters in the courthouse each Thursday morning from 9 until 11:30. All business firms or individuals who come under the above listed classifications are urged to apply for their chauffeur's and, or driver's license at an early date, as the highway patrolmen are instructed to check up on all drivers of cars, trucks, and pick-ups at any time they deem it necessary to do so.

WE APPRECIATE YOU, EAGLES, AND YOU, COACHES

In behalf of the Canyon High School, the Eagles Tale staff wishes to express sincere appreciation to the Eagle football club, and their coaches, Emil Hutto and Gerald Brown, for the successful season you have displayed this year.

It is through your co-operation, loyalty, and Eagle spirit, that you have been so successful this year, but may your genius go still further next year and in years to come in everything you undertake.

Now that your season is over and has been so successful, let us now forget football until next year, and back the basketball team in the same way. Keep the good old Eagle spirit going, and we, the students of C. H. S. hope you will be fluttering with District honors.

OUR PARENTS SHOULD SHOW THEIR INTEREST IN US

In Maplewood, New Jersey two years ago 1500 adults attended school at the junior high school. Last year Maplewood joined forces with the village of South Orange. They have more than 50 subjects offered including Bible, history, arts, needlework, crafts, food preparation, and interior decoration. The school also has games, physical activities, and lectures on public affairs.

This large project was accomplished by Dr. Ross O. Runnels, principal of the school, co-operating with the local Parent-Teach-Association. If one Parent-Teachers Association can accomplish so much, our local organization should be able to put over the things which it attempts, but it has not had the co-operation of all the parents.

Next Tuesday evening an outstanding thinker in the field of sociology, J. L. Duflot, professor of sociology at West Texas State College, will give an analysis of the results of the recent student questionaire on "What Canyon Students Think of Their Parents." The students have done their part in answering all questions. We wonder if the parents are interested enough in their children's answers and their difficulties to come to the P. T. A. meeting next Tuesday night.

SENIORS HAVE NOVEMBER PARTY AT FLESHERS

Natalie Flesher and Clarence Zachry entertained the Senior class at the C. R. Flesher home, November 26.

The guests danced and played spoons and ping-pong during the evening.

Those present were Mary Bourn, Juanita Langston, Helen Johnson, Sarah Thompson, Martha Jo Newlin, Marie O'Donald, Lillian Chambers, Dorothy Warwick, Mrs. Ora Newlin, Billie B. Flesher, Joe Patterson, Billy Bewley, Glen Burrus, Glen Persons, Glen Campbell, Ferrell Abbott, John Albers, Jimmie Carr, Ray Ford Rusk, and the hostess.

EAGLES START BASKETBALL

With high hopes the Eagle basketeers have started their training for the coming season.

Because of the change in the rules since last year, Mr. Morris, the Eagles' basketball coach, reminded the boys that everyone must keep well in training. With the new rules, after the goal has been made the ball will be taken to the side line and the team that was scored against will throw the ball in from the sideline.

This, as coach Morris said, will make a very fast game. He warned the boys to keep in shape.

Some boys who have been coming out for football have not started basketball training yet, but are expected to start soon.

Junior F. F. A. Votes Sanford President

Wayne Sanford was elected president of the organization of the seventh grade Future Farmers of America in the agriculture room November 23.

Other officers that were elected are: Vice president, Mack Rogers; secretary, Earl Rusk; sergeant-at-arms, Earl Brooks; and treasurer, Winford Brooks.

The purpose of this organization is to give the boys of the seventh grade a chance to develop an interest in and learn something about agriculture.

Here's That Man Again

Mama! here's that man again! Who? Well, I looked out the window and there was a Something cutting branches off the school trees. I just had to get up and stare out the window. I did. The teachers couldn't imagine what was wrong with me. But I looked out the window. There, running up into the trees was a line of little stairs. The Something was working again. Aren't you wise yet? The trees are being pruned! Mr. Howard was the man, perched precariously on a ladder (the stairs) with an e-nor-mous pair of scissors (the Something) who's been pruning.

Ex-Student Is Injured In Car Accident

J. B. Watson of Lockney, ex-student of '29, was seriously injured in a car accident November 22. He is in Northwest Texas hospital in Amarillo.

The accident occurred between Dumas and Amarillo early Monday morning.

THIRD AND FOURTH GRADES ENTERTAIN WITH PARTIES

Mrs. Carl Scott's third grade and Miss Gladys McClanahan's fourth grade entertained with Thanksgiving parties last week.

Mrs. Carl Scott's third grade entertained their mothers with a Thanksgiving party Tuesday. The children made puppets to illustrate the first Thanksgiving Day and gave a show to the parents. Mrs. Scott read a story, "Pilgrims Thanksgiving," and the children sang the song, "Our First Thanksgiving Day." The refreshments of punch and sugar cookies were made and served by the girls of the class. Parents that were present were: Mrs. Jack McBroom, Mrs. Roy Faust, Mrs. Lena Tucek, Mrs. J. J. Wright, Mrs. Henry Long, Mrs. Gore, Mrs. H. H. Folk, and Kate Tucek.

Miss Gladys McClanahan's fourth grade entertained Mrs. Isabel Cousins' room with two Thanksgiving plays Wednesday. Mrs. Cousins' room read and told stories on Thanksgiving, Tuesday. Refreshments of chocolate bars were served to the children by Mrs. Cousins.

PEACE OR SLAUGHTER FOR CHRISTMAS?

Since Thanksgiving has been passed over fairly successfully, with not more than a score of people injured in the automobile wrecks in this community, let's see what prospects we have for the future.

In four weeks, children will be hanging up their stockings on the mantle and decorating Christmas trees. All the store windows in town will be appropriately attired in glittering tinsel and green designs. Holly wreaths will grace the windows of private homes. School children will begin to re-memorize their favorite Christmas Carols. Churches will prepare their annual trees, and rejuvenate their well-worn Santa Claus costumes. Everyone will feel charitable enough to donate his last dime to the benefit organizations "around town." And in everyone the spirit of hospitality will reign. No one will purposely harm another.

And yet, 400 people are destined to die by car accidents before January in Texas alone! Can we prevent this slaughter?

Duflot Will Discuss Parent and Child Relationship

Next Tuesday at 7:30 o'clock at Canyon High School, J. L. Duflot, professor of sociology at West Texas State College, will talk to the Parent-Teachers Association on, "Parent and child relationship in the home and school."

The last meeting which was held November 9th was to discuss the answers of the questionaire that was given in school on November 5. The result revealed that 95 per cent of the students would enjoy a social evening at home with the family; that two-thirds of the students have a place to study at home, and that the habits about fathers most annoying were drinking, use of improper language, and use of tobacco. Many other revealing facts were discovered.

Mr. Duflot will show the underlying causes and the probable results of the answers at the meeting to be held December 7. He will also offer suggestions and solutions.

Grant Sharman will entertain with a trombone solo.

HORNETS BEAT EAGLES 21-0

With the district crown at stake, the Tulia Hornets defeated the scrapping Eagles of Canyon High School Wednesday 21 to 0.

The Hornets scored in the first, third, and fourth periods while staving off every Eagle offensive attempt. The Eagles were weakened by the absence of Ray Ford Rusk, 192 pound quarterback, who suffered a foot injury the week before in the Dumas game.

Tulia's first score came with the aid of the wind. The Eagles received the opening kick-off and punted against the wind. The ball hit the turf, and bounded back over the goal line. Moon, end, fell on it to give Tulia her touchdown. Cameron place-kicked the extra point.

Tulia's second touchdown came on a march from her own 49-yard line. Cook scored from the one-yard line. Again Cameron place-kick extra point.

Early in the fourth, Cook dashed around end, going 26 yards to score standing up. Cameron added the third extra point.

Arterburn and Cook did most of Tulia's ball carrying with Graham fullback, aiding now and then. For Canyon, Gill and Hill played an outstanding game.

The starting line-up:

Canyon		Tulia

Canyon High School Has New Students

New students in Canyon High School and Canyon Grade School are Al and Mary Thomas, son and daughter of the Reverend S. A. Thomas from Tulia, recently selected Methodist preacher for Canyon.

Mary is enrolled in the sixth grade, while Al is a junior in high school. Al is most interested in band. He played a trombone in the Tulia Band, but is changing to an E Flat bass.

CANYON HIGH SCHOOL HAS NEW GRAND BABY

Beverly Dianne Brian, a six pound girl, was born November 18 to Mr. and Mrs. Bill Brian of Amarillo.

Both Mr. and Mrs. Brian are graduates of 1930. Mrs. Brian is the former Cleo Heath.

Gordon Beck's hobby club is giving an exhibit tomorrow.

HOME MAKERS WILL MEET WITH F.F.A.

The Junior Homemakers Club and the local chapter of the Future Farmers of America will have their first joint meeting Thursday in the high school auditorium.

Milton Morris, agriculture advisor, will talk to the group on the benefit received from the joint meetings which will be held this year. Helen Johnson will discuss boy and girl relationship, and some film strips of Yellowstone National Park will be shown to the clubs.

The F. F. A. "Hay Riders" which includes Eston Brietling, Carlis Currie, Glyn Persons, and Clifton Wesley, will furnish music for the entertainment of both clubs.

BOOK REVIEW

Do you enjoy Civil War stories and poems? If you do, you might read Stephen Benet's book, "John Brown's Body," which is written in poetry form.

The book is divided into eight books, and has different families represented, two of which are a rich family who moved because the Yankees were burning all the Southern homes. Another family represented consists of the father, a son, and a daughter, who moved into the forest so the father and son wouldn't have to go to war.

It also gives an account of the death of Lincoln and the freeing of the slaves.

The poetry itself offers great variety—ranging through almost every rhyme scheme and meter to free verse.

This book may be obtained from the Canyon High School library.

Glyn Persons, senior, attended the Amarillo-Lubbock football game in Amarillo Thanksgiving.

Activities of Band Will Continue

The Canyon High School Band will continue to function though football season is over.

Al Thomas, son of the new Methodist minister, will play a bass horn. He previously played a trombone at Tulia. There are other additions to the Band with their instruments: Jane Campbell, Dan Persons, Anita Davis, and Patsy Danner, clarinets; Leroy Wooten and Leroy Moreland, flute and baritone, respectively.

The Band is planning to give a concert sometime before Christmas.

Contest numbers for solos and ensembles have been received, and the list for others posted in the band room.

Dannie Stewart has received a new French horn, which will be an important addition to the band.

Spanish Club Gives Play

"Little Nell," a Spanish playlet, was presented in the high school assembley Tuesday afternoon by the Spanish club. It was given in the Spanish language.

Little Nell was a member of a Spanish peasant family. At the beginning of the playlet the family was very distressed because they did not have the money with which to pay their rent. Little Nell's fiance agreed to sell his guitar to pay for the rent. Just a short time before he returned with the money, the landlord came. The landlord said that he would take either Little Nell or the money. He was taking Little Nell off when the fiance arrived with the money. He cursed because he had wanted Little Nell more than the money.

Those who took part in the playlet were: Ferrel Abbott, Sanford Black, Ray Bird, Joe Harry Roberts, Eugene Newberry, and Billy Black.

Before the playlet, Sarah Thompson, Annie Mae Spencer, and Helen Johnson sang "Mexicali Rose," "La Golandrina," and "When I Grow to Old to Dream" in Spanish. After these selections, the playlet was introuduced by Sarah Thompson.

Press Club Opens News Subscription Campaign

In order that the Press Club may get to go to Denton for the Press Convention December 10 and 11, they are selling subscriptions for The Canyon News. Each two persons have been assigned a street where they sold subscriptions Monday and Tuesday. The members from the country are selling them to their neighbors.

Mrs. Guy Tabor went to Guymon, Okla., and Stratford, Texas, during the holidays.

Margaret and Dannie Stewart visited Mr. and Mrs. George Archer of McAdoo, over the week-end.

Carruth and Davis Return From Texas State Teachers Meet

"A long trip? I'll say its a long trip. I thought I'd never get back from Houston," said I. B. Carruth, superintendent, when he was interviewed concerning his trip to the fifty-ninth annual convention of the Texas State Teachers Association. Mrs. John Davis, teacher of the sixth grade, also attended the convention.

Mr. Carruth said, "We had a good convention, though the program wasn't as strong as some of the others have been. The general theme of convention was 'Looking Forward' or 'The Practical Next Step.' Nearly all of the speeches were built around that theme. Thursday evening we heard three strong addresses.

"Take Me with You," a plea for developing the students' consciousness of the educational process, was an address given by Dr. Henry N. MacCracken, president of Vassar College, Poughkeepsie, New York. Dr. W. B. Bizzell, president of the University of Oklahoma, talked on 'Facing Realities in Our Educational Situation.' 'Education in a World Gone Mad,' was the subject of the address given by Dean William F. Russell, of Teachers College at Columbia University.

Dedicate Coliseum

"The Houston Coliseum was dedicated by Dr. Bizzell, Friday morning. The meetings of the convention were held in this large auditorium, which was built by Jesse Jones, a resident of Houston, and chairman of the National Reconstruction Finance Corporation.

"Dr. John Guy Fowlkes, professor of education in the University of Wisconsin, spoke Friday evening on the subject, 'Mr. Citizen Evaluates the Public Schools.' Three addresses were given Saturday morning. 'Choked-off Educational Equalization,' was the subject used by M. M. Harris, editor of the San Antonio Express. C. W. Huser, Works Progress Administration in San Antonio, spoke on 'The New Adult Education Movement and the Public Schools.' 'Radio Education,' was the topic of a speech given by T. H. Shelby, Dean of the University of Texas."

Hold Sectional Meetings

Mr. Carruth continued, "Forty-three interesting sectional meetings were held. I attended the superintendent's section. We had an excellent program in the morning which was ended by a very interesting luncheon held at San Jacinto Inn at noon Friday. This Inn is located on the historical San Jacinto battleground. An abundance of sea food was served, and after the luncheon we made a tour of the San Jacinto Memorial which is now nearing completion. It is nearly the biggest thing I ever saw and it is beautiful. This memorial cost $1,500,000 and towers 564 feet above the battleground.

"The citizens of Houston and the teachers of the public school system were very gracious to the guests and did everything in their power to make the meeting a success.

"The commercial educational exhibits were very complete. One of the best they've had.

"We enjoyed that section of the state. Everything is still green there."

Stay With Ex-Superintendent

Mrs. Carruth and Bruce made the trip with Mr. Carruth. They spent Wednesday and Saturday nights with Dr. and Mrs. James Webb in Denton. Dr. Webb, who is now professor of education at North Texas State Teachers College, is an ex-superintendent of Canyon High School. Mr. Carruth said, "At Denton I had lots of fun. Dr. and Mrs. Webb, Mrs. Carruth and I went persimmon hunting. We also got a bunch of autumn leaves. The oak trees are just a blaze with color. It's a very pretty country this time of year."

Davis Tells of Trip

Mrs. John Davis in telling of her trip, said, "I think it was well worth while and we crammed as much in three days as we could. We had planned our trip before we left, so we knew what we were going to do. I met lots of people that I knew."

Mrs. Davis and her party, which included Lillian Davis, ex-student of '29, and Mary Beth Campbell, '33, both teachers in Skellytown, Marshall Gordon of Higgins, and Margaret Harvey of Groover, made their headquarters at Rice Hotel.

Continuing with her trip, Mrs. Davis said, "We arrived at Houston early enough to attend the Thanksgiving service at the Houston Methodist Church. In between programs at the convention, we visited historical and interesting places of Houston, such as the San Jacinto battlefield, and the Houston Channel.

Attend Ex-Student Banquet

"We attended the ex-student banquet and an Indian Pow-wow. I visited the Sam Houston High School and the commercial school exhibits and was especially interested in the sixth grade exhibit on their unit of Texas. Their methods were the same as ours, but of course they were better because they have more children to work with and with more art than we do.

"We went to Galveston on Friday after the convention and came back to San Antonio where we visited the Alamo and the San Jose Mission, where they were having services, and we also visited Austin."

In concluding her interview, Mrs. Davis said, "We were on the go all the time, but we learned and saw a lot."

EAGLES CLOSE SEASON

On September 24, the Canyon Eagles, under Coaches Hutto and Brown traveled to Memphis to tangle with one of the strongest teams in district 3-B. They won 12 to 6 over the Memphis Cyclones in the opening game of the season for the Eagles.

October 1, the Eagles met the Friona Chiefs on their own stomping ground and beat them 34-0.

The following week on October 8, the Eagles met their most noted foe, Hereford. The Eagles won a hard-fought battle with a score of 12-0.

The next game was a conference game with Vega. The Eagles won 12-0 over George Caviness' Longhorns.

The Eagles went to Happy on October 22 and flew over the Cowboys 31-0 in a hard-fought battle.

On October 29, the Eagles beat the Stratford Elks 40-0. The second string played two quarters of this conference game.

The Dalhart Wolves invaded the Eagles' strong-hold and went down in defeat 25 to 6. The Wolves crossed the Eagles' goal line for the second time this year.

The Dumas Demons went down in defeat in a conference game 27-0.

This put Canyon in first place in District 1-B, section 1.

The Eagles went to Tulia November 24, and without the brilliant playing of Captain and quarterback, Ray Ford Rusk, went down in defeat 21-0. The Eagles fought hard to the last.

This ended one of the most successful seasons of football in Canyon in several years. Having only five touchdowns scored against them, the Eagles scored 193 points.

This was the last game for several of the Eagles: Captain Rusk, co-captain Hill, Jimmie Carr, Jimmie Pope, Douglas Brasuel, Joe Crowley, James La Cour, Glen Persons, Glen Burrus, Clarence Zachry, and Hugh Dalton.

Gridiron Gossip

Well, things have really closed up as the bi-district games are nearing.

Last week Canyon took a defeat at the hands of the Tulia Hornets 21-0. Tulia will now play the strong Panhandle Panthers. In Districts 3 and 4, the Wellington Skyrockets will play the Spur Bulldogs. In district 4, Flomot and Spur were tied for first place until a coin was flipped and Flomot won the toss. Then Spur ruled one of Flomots players ineligible and the district crown was given to Spur.

Panhandle is doped by scores to beat Tulia, and Wellington is favored Spur. But the buckets may be overturned.

McCREREY-GIDDEN WED THANKSGIVING DAY

Miss Ruth McCrerey, ex-student of '35, became the bride of Richard Gidden, ex-student of '32, in a simple, but impressive ceremony at the home of the bride's parents, Mr. and Mrs. J. W. McCrerey at 2 o'clock Thanksgiving Day, with the Rev. G. M. Stuart, officiating.

The bride was attired in brown with brown accessories and was attended by fifty relatives and friends.

Immediately following the ceremony relatives of both the bride and the bridegroom were guests of Mr. and Mrs. McCrerey for Thanksgiving dinner.

The couple will make their home in Canyon where Mr. Gidden is in business with his father, Mr. E. Gidden.

Mrs. Stella Murrell spent the holidays in Pampa with her daughter, Miss Etheleen Murrell.

Students Express Opinions

(Editor's Note: Dear Readers, This week sees the birth of a new column, that of frank opinion by students of Canyon High School. We welcome opinion both favorable and unfavorable from any student, teacher, or parent of Canyon High School.)

COULD WE GIVE SWEATERS?

It is a wonder to me why not only this school, but all other Class B schools have decided to give only one letter sweaters to an individual athletic career in high school. Some boys come to school and play not only for the fun of playing and for the glory of the school, but they love to put forth all the physical strength they have for one thing, a sweater.

If one of these boys letters while a sophomore and receives his sweater that year, he loses 50 per cent of his spirit and thus loses interest and doesn't care, but if he had the sweater to look forward to, he would play harder than before because next year he will get two stripes and the next three and probably a star. With this one sweater per person he would probably even get so disgusted he would quit school: a loss of a player and a student. Is it that the schools are too stingy to buy sweaters each year?

STUDENT BACKS PRESS CLUB

I am not a member of the Press club, but have been a member of the football club this year. It is my opinion that the Press Club should have a bus for the trip to Denton next week-end. The football boys have always obtained a bus when they needed it, but the Eagle's Tale has won in the state for the last three years, but has not ever been permitted to attend the Texas High School Press Convention which meets at Denton.

D. A. Butler.

WHERE IS THE HONOR ROLL?

I am representing a number of Canyon High School students. We demand to know why the honor roll hasn't been published!

During the first six weeks of school, the faculty of C. H. S. met to decide whether the school press club should or should not print a high school honor roll. The plan to print the honor roll was approved by the faculty.

An honor roll is a sort of tradition in C. H. S. It is a kind of goal toward which the students strive every six weeks. We consider it quite an honor to be placed on the honor roll.

Well, immediately after the first six weeks grades were recorded in the books of the teachers, the newshounds of the press club attempted to get both the high school and the grade school honor rolls. Of no avail. Why isn't the honor roll accessible? Where is the action of this school? Who's promoting the academic and scholastic efforts of us struggling geniuses? We want an Honor Roll!

Martha Frances Campbell.

DO GIRLS DESERVE SWEATERS?

It is my opinion that the girls who work hard to letter in basketball deserve sweaters as much as the boys. Why give the boys sweaters and not the girls when they do not work any harder? The girls work just as long hours and put forth just as much effort as do the boys.

If the girls had sweaters to look forward to each year, there is no doubt that they would work harder, and have a much better team. I do not mean to say that the boys should be deprived of their sweaters, but I think the girls should have sweaters as well as the boys, because both teams are valuable to the school.

Natalie Flesher.

DO WE NEED MORE ACTIVITY?

We had a full noon program promised to us by Mr. Carruth. We went to the auditorium to sit there and listen to the program. Instead of a program some boys ganged on the stage with the instruments to give a program, but we heard no program. After that they hooked up the radio, but you couldn't hear it for the noise.

Then someone decided to go to the gym and play. One day the girls' door was locked while the boys were having a swell time playing ping-pong. Another day the door was locked, and when we got it open, there was nothing to do. The ping-pong sets were locked up and we were not permitted to play with the basketball.

We, the students, often get fussed at for walking the halls and making too much noise. If we had something to do that would interest us, there would be no mobs in the halls.

It looks as if the student council could do something. I wish someone would. All that time wasted and so many things could be done.

Kettie Johnson.

STUDENT LIKES AGR. MOVIES

I like that moving picture machine that is being used now in agriculture. You can study a whole lot easier, and it makes it more interesting to me. Agriculture is my favorite subject, but I like all my subjects.

Recreational Hall To Be Completed January 1

Workmen are adding finishing touches to the recreation hall at Buffalo Courts which will serve the W. T. athletes as a social and study center. The Hall will be ready for use by Jan. 1, Coach Al Baggett said.

Work in progress now includes laying and polishing a flagstone floor in the social center. This floor will add to the beauty of the building which is already recognized as one of the most picturesque structures in the Southwest. Beautifully designed fireplaces of varicolored stone are situated at each end of the main rooms on both floors.

Three men of the athletic department will live in the hall as caretakers.

The large room on the second floor will serve as a study room, and the principal room on the first floor will provide a social center for the athletes. The social center will be equipped with ping-pong tables, chess, checkers, a radio, and other facilities for entertainment.

A handball court is being completed on the first floor. This sport has become increasingly popular on the campus in recent years, and there is already one court in Burton Gymnasium.

Basketball Squad Resumes Practice After Holidays

Thanksgiving holidays broke up basketball workouts for the last week. The thin clads resumed practices yesterday afternoon.

The lay-off will be the last one of the season. During the Christmas holidays, Coach Baggett takes his Buffaloes to their official season opener at Oklahoma City in the Daily Oklahoman tournament. This is reputed to be the Sooner State's outstanding basketball meet, and brings to the capital city the outstanding cage combinations of the Southwest.

Coach Baggett has announced two tentative games with the Panhandle Aggies in mid-December. The remainder of the schedule will be completed when Baggett attends the basketball meeting of Southwestern mentors at Dallas in the first week of December.

A probable first five composed of Walling, Pietzsch, Shackelford, Stephenson and Butler finds an average height of six feet four and three-fifths inches. All of this group except transfer Pietzsch were regulars last season. Butler and Walling will be playing their last year under the maroon and white banner.

In work-outs, Coach Baggett is drilling Pietzsch and Shackelford at the pivot posts, with Walling, Butler and Stephenson stationed on the outside zone.

The surprise package of the scrimages thus far is fleet Ernest Schur, who has led the B squad to wins over the first and third strings. Playing with Cullender, Amburn, Hayes and Kendrick, Schur has shoved the ball around the court with top season sparkle.

Buff Captain

Captain Conway Butler, six feet two inch forward from Wichita Falls, has attracted much recognition with his overhead push-shot in the two years that he has lettered on the Buffaloes. His cool but precise play won for him the admiration of his teammates last year and he was unanimously selected to lead the 1937-38 squad.

That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Santa Fe spends 125 million .. in Eleven States!

The Santa Fe, in 1936, paid out more than 125 millions of dollars for materials and supplies, fuel, wages and salaries, and other items of operating expense, in the eleven states in which it operates. The amount assignable to each state was as follows:

Illinois	$ 8,600,282	Louisiana	$ 137,989
Iowa	1,086,406	Colorado	4,865,701
Missouri	8,197,033	New Mexico	15,111,396
Kansas	27,069,366	Arizona	12,919,152
Oklahoma	9,606,664	California	21,251,768
Texas	16,216,061	Total	$125,061,818

From 1927 to 1936, inclusive, the monies disbursed by the Santa Fe in these states for operating expenses totaled $1,350,499,728.

This average annual expenditure of more than 135 millions of dollars over the past decade, devoted entirely to the purchase of goods and services, has been of inestimable value in promoting local industry and trade, and in providing varied employment for thousands of persons, throughout Santa Fe territory.

Work Stops

Texas State Park Board believes it can never pay.

Several meetings between park officials and local citizens have been held during the past two months, seeking a way out of the tangle and with a view of allowing work to proceed. The last meeting was held in Amarillo two weeks ago, at which time it was predicted that work would be stopped unless some settlement could be made whereby a clear title was secured to that portion of the land upon which the improvements are located.

Park Stays Open

W. T. Taylor, manager of the Palo Duro Park Corporation, stated Monday that his company would continue to keep the park open so long as the Texas State Park Board kept up the roads and other improvements on the property.

"The people over the nation are just beginning to learn of the beauties of the Palo Duro. We are having a large number of people from other states at the park regularly now, and this number will increase if the property can be kept in adequate repair." Mr. Taylor hopes that people of the Panhandle will continue to make the Palo Duro their picnicing center. He is planning an extensive advertising campaign for next year in order to attract visitors.

No word has been received here from the Texas State Park Board. This board has the choice of continuing to hold the property and operate it as best it can, or to relinquish all claim to the land and allow it to go back to the original owners. The board threatened last year to do the latter as it was known then that the debt against the property was so huge that it could never be paid.

No Army Plans

Whether or not the army will dismantle the barracks at this time is not known. An effort will be made to induce the army to leave all property as it stands today.

Mr. Ayres stated Monday that his department will try to complete the wells at the W. G. Rose place and get the pipe line run to the camp before quitting time. The army has been furnishing all of the water for the park from wells at the Finck place. This arrangement has not been satisfactory and has cost much money to operate. Without the CCC men, it would be impossible to operate the pumps and provide water from the present location.

More definite information regarding the operation of the park in the future and disposition of the men engaged in work on the project is expected from the Texas State Park Board before the end of this week, as a meeting of this board is expected to be held within a few days.

PRESBYTERIAN GUILD WILL BE ORGANIZED

At the meeting of the Ladies Auxiliary of the Presbyterian Church, a committee was appointed to complete plans for the organization of the Presbyterian Guild for young people of the Church. This organization will be similar in scope and purpose of the other ladies' organizations but will have a program especially adapted to the young women of the church. The committee appointed to complete plans is composed of Mrs. C. L. Thompson, Mrs. J. D. Barker, and Mrs. Alfred M. Dorsett. The initial meeting will be held next week.

At the morning worship service on next Sunday morning, Rev. Dorsett will have as his subject "The Radient Life." "The truly Christian life is the most radiant thing in all the world," will be the theme for the service. At the evening worship hour the theme will be "How Old Are You."

The Sunday School is beginning preparations for Christmas services on next Sunday morning. At 6:30 p. m. Junior and Intermediate Pioneers; Senior Tuxis and Young People's Christian Endeavor will meet. The Junior Choir will render special music at the evening service and will also start at their practice hour on their Christmas music.

On Monday evening the Session will meet in the Pastor's Study for regular monthly meeting. Beginning at 10:30 a. m. on Tuesday the Ladies Auxiliary will have an all-day meeting, with luncheon in the basement of the church, for the purpose of studying "Mecca and Beyond," which will be reviewed by Mrs. J. R. Sharp. On Thursday evening the Sunday School Council will meet at the Manse to lay plans for the month ahead.

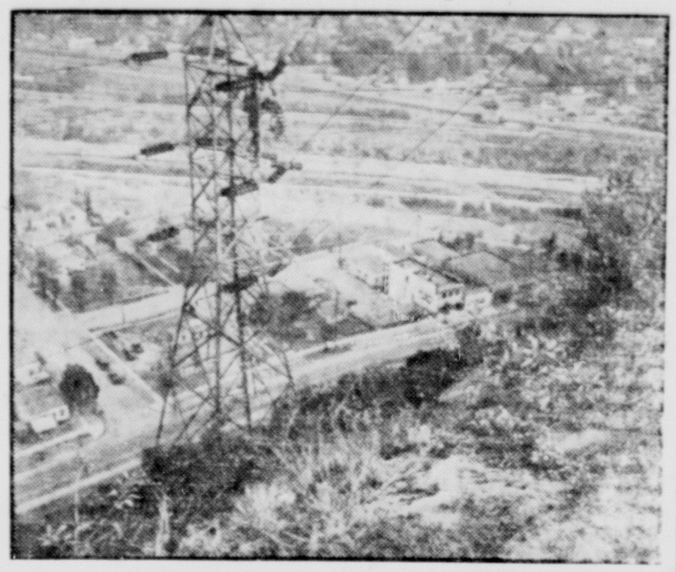
Area Doomed by Sliding Mountain



Increasing danger that Los Angeles' moving mountain soon may start its plunge into the river 600 feet below brought orders for immediate evacuation of homes and buildings of the imperiled valley shown in the above view from the mountain's crest. Geologists predicted any attempt to halt the slide of the two-million-ton mass of soil and rock probably would be futile. Two highways, bridges, and railroad tracks will be covered if the avalanche occurs.

RECOMMENDATION

Mrs. Smithers had decided to have the floor of her reception room polished and accordingly she sent to a large firm asking them to put a man on the job as soon as possible. When the polisher arrived his manner was far from energetic, and the anxious lady of the house was afraid he would not do the floor properly.

"You know Mrs. Gerton's house next door but one?" he asked rather indignantly. "Well, I refer you to them. On the polished floor of the dining room five persons broke their legs last winter and a lady slipped clean down the staircase. I polished all their floors."

W. T. Changes

(Continued from first page)

teachers colleges, liberalize degree requirements so that students may obtain a college education without subjects specifically prescribed for teachers and in view of the fact that many colleges can offer such instruction to the youths of the respective areas without additional cost to Texas it is the sense of this Board of Regents of the State Teachers Colleges of Texas that the president and proper officials of each college within their discretion are authorized to accept students and offer courses leading to a degree without requiring formal courses in education. However, no teachers certificate can be granted such students until required formal courses in education are completed.

Approved Change in Title

"It is the sense of this meeting that while we have no authority to change the names of teachers colleges that we recognize the need and value of shorter titles and have no objection to the current usage of shorter names as is being done so long as the identity is not changed."

The board of regents unanimously accepted the resolution.

Some newspapers in this area have used the title "West Texas State College" for some time in referring to this college. Official changes in the names will depend upon the legislature, however.

Former State Senator R. A. Stuart of Fort Worth, chairman of the board strongly supported Carl Hinton's contentions, which were made at Huntsville Wednesday. The regents and college presidents had gone there to attend the inauguration of President C. N. Shaver of Sam Houston State.

Action was taken at Houston Thursday in a second session of the board. The motion to permit Teachers Colleges to confer degrees without requirements in education was made by Dr. J. G. Ulmer of Tyler, who said the regents should respect local needs and opinions. W. B. Bates of Houston seconded this motion after amending it to extend the privilege to all Teachers Colleges.

Action Permissive

Inasmuch as the action was permissive rather than mandatory, each instituiton will set the date for making the change effective, if desired. Dr. J. A. Hill, president of West Texas State, will discuss the subject at a meeting of his faculty today. In a statement to the board prior to its meeting, Dr. Hill pointed out the advantages and dangers in the proposal. Broadening of the scope of Teachers Colleges is, he said, a trend which is general over the nation.

Making education courses elective and broadening the curriculum of the College will serve to greatly increase enrollment here, friends of the proposal declare.

Panhandle Favors Change

The movement to liberalize degree requirements here has been supported by numerous Panhandle groups for the last several years. Carl Hinton, secretary of the Amarillo Chamber of Commerce, urged immediate action on the proposed changes Wednesday at the board meeting. He had resolutions from several counties in this area as well as from the Amarillo Chamber of Commerce and Panhandle Water Conservation Association which is headed by John L. McCarty, a former student and editor and associate publisher of the Amarillo Daily News. The Amarillo News has supported the idea editorially for several years.

Potter County ex-students of W. T. drew up resolutions recommending courses leading to a degree here with education as an elective at a meeting in October.

This Week's Patterns

SIMPLE and unadorned, the afternoon frock of Pattern 8059 is designed for young moderns. The tucked bodice is shirred at the waistline to emphasize the curves of the figure. Comes in sizes 12, 14, 16, 18 and 20.

The new long lamp-post silhouette so popular this year is presented in the day-time dress of Pattern 8066. A smart outfit for festive occasions. Designed in sizes 12, 14, 16, 18 and 20.

The diagram beside Pattern 8075 shows how simple this charming house dress is to make. This model in a variety of fabrics is sure to keep the lady of the house looking her best. In sizes 34, 36, 38, 40, 42, 44 and 46.

A three-piece outfit to delight the girl of ten is shown in Pattern 8087. The blouse is as trim as a weskit and the calot cap and muff are made in contrasting material. Designed for sizes 6, 8, 10, 12, 14 and 16 years.

A distinctly different gift is the evening ensemble of Pattern 8089. The bolero jacket is of velvet or metal cloth and transforms an otherwise simple daytime frock. Bag and calot are made to match. Comes in sizes small (34-36), medium (38-40) and large (42-44.)
